

## GlobalAccess Network Selection Instructions

1. Upon successful installation of the VZAccess Manager<sup>SM</sup> software, a VZAccess Manager icon will reside on your laptop.
2. Click on the VZAccess Manager icon to display the pop-up window.
3. Select "Tools" from the top navigation bar.
4. Then select "Network Selection."
5. Then select "Manual."
6. Based on your location, use the country and carrier chart below to highlight the appropriate network.
7. Select "Register" to complete the manual network selection.
8. You will now be connected to the proper network and ready to access the world.
